

To whom it may concern

**General information about Stigabs compliance with Reach (EC) No 1907/2006 and WFD 2008/98/EC directives.**

The products supplied by Stigab are, under the definition of European Regulation (REACH), defined as articles. Stigab AB itself is defined as a downstream user. The supplied products are not intended to release any substances under normal or reasonably foreseeable conditions of use.

Stigab continuously evaluate its product designs and conduct due-diligence processes toward our suppliers to ensure their compliance with both REACH and WFD legislation. Sub-suppliers of components are obliged to inform Stigab in writing if any substances of very high concern (SVHC), listed in the candidate list, are present in concentration levels above 0.1% (w/w).

If we receive information about any SVHC substances above threshold level in products, Stigab will act according to REACH and WFD legislation. This is to ensure that Stigab products comply with the REACH and WFD legislation.

All information has been provided to the best of our knowledge. We hope this has answered your inquiry to your satisfaction. If you have any further questions, please do not hesitate to contact us.
